

Proposal – School 12 x IP Desk/Wall Stations, 1 Reception and a Central Exchange

- Press and hold (ALL CALL) key to make an “ALL CALL” to all areas, this will make a “BING BONG” sound in all stations, you can then make your announcement with out the classrooms pressing any buttons (Handsfree)
- To call a classroom station (one to one) dial the two digit number for the station required. This will ring in the receiving station, receiving station will need to press the “M” key to answer the call.
- To make an emergency ALL CALL EVACUATION pre-recorded announcement, you will press a DAK (direct access key, top right hand side of phone) then enter a pre-agreed code into the keypad preventing anyone (pupil) activating this message, once you have entered the code a message will be announced on all stations, and will keep repeating the announcement until it is canceled.
- Press “C” to cancel a call.
